

“Frank Pahl : new suites and themes”

May 2 – May 23, 2015

Influential musician, composer, sound artist and kinetic sculptor Frank Pahl is a true original, juggling sound, light, movement, and on occasion concepts, to create genuinely magical experiences. For the show “*new suites and themes*” he intends to combine his trademark automatic instruments with hitherto unseen kinetic sculptural works, to create a configuration inspired directly by 9338 Campau's lofty ceilings.

For more background on Frank and his unique oeuvre, see this [short essay on the website Essay'd](#).
